

## Body Butters

Our skin-quenching Body Butters  
glide on the skin beautifully.

Phenomenal moisturizers that thoroughly nourish and indulge the skin with vitamins and nutrients as well as wonderful ingredients such as Whipped Shea Butter, Cocoa Butter, Honey, Wine, Floral Extracts and Essential Oil among others.

One of the differences between lotions and butters is that lotion has a very much higher percentage of water, some lotions can be up to 70% water. Body butter is composed mainly of oils and butters. The result being unimaginable soft, silky skin.

Made in small batches for freshness, our Body Butters are colored with natural fruit dyes to add more skin nutrients.  
yes to add more skin nutrients.

"Beautiful skin requires commitment, not a miracle."  
– Erno Laszlo
