

Aromatic Diffusers

Nabila K Reed Diffusers are a wonderful flame-free solution to scent, aromatically, a living space where candles cannot burn safely.

The rattan reeds sticks are very porous and work like micro-mini straws carrying the fragrance from the bottom to the top and releasing the aroma into the air naturally. Occasionally flipping the reeds upside down sticks will refresh the scent.

According to Feng Shui principles (an ancient practice that guides the flow of energy or Chi), the flow of Chi is unique to every home. Aromatic fragrances can be used in the central part of the house to help bring about balance, harmony, and prosperity.

Diffuser oils are flammable Keep away from open flames. Diffusers contain oils and will stain wood surfaces. Always clean the bottom of your bottle before setting on any surface.

Nothing revives the past so completely as a smell that was once associated with it."

- Vladimir Nabokov
