

## Body Scrubs

Made with Organic Brown Sugar, in small batches for freshness, our Body Scrubs are brimming with a combination of the finest oils, butters, superb extracts and vitamins blended to produce a natural, gentle, yet invigorating treatment for your skin.

Sugar is a natural source of glycolic acid, an alpha-hydroxy acid that brilliantly penetrates the skin encouraging cell turnover and precipitating fresher, younger-looking skin.

Sugar is a natural humectant, drawing moisture from the environment and helping to hydrate and keep your skin moisture within. Exfoliating helps creams and lotions penetrate the skin more effectively.

“Beauty is only skin deep.”  
– Sir Thomas Overbury
